About Me

I am a 16-year-old Certified Full Stack Web & Blockchain Developer, passionate about building modern, scalable applications. With expertise in the MERN stack, Blockchain, and AI integration, I specialize in solving real-world problems through innovation, optimization, and automation.

Experience

Freelance Full Stack Developer | Fiverr & Local Clients | Feb 2024 – Present

- Developed and deployed responsive and scalable web applications for international and local clients.
- Designed and maintained front-end and back-end systems using the MERN stack.
- Built custom solutions such as AI-driven platforms and blockchain-based apps, tailored to client business needs.
- Collaborated with clients across different industries to deliver solutions with a focus on usability and performance.

Education

Matriculation in Computer Sciences (Ongoing) | Unique Group Of Institution | 2024 – 2026 (Expected)

Certifications

- Full Stack Software Development Certification | Nexskill
- CS50 AI Development | Harvard University
- Web Development | IBM
- Foundations of Digital Marketing | Google
- Introduction to Generative AI | Google
- ReactJS Certification | HackerRank
- Problem Solving | HackerRank
- MERN Stack | PFTP
- React Native Essentials – Build Mobile Apps Like a Pro | Government of Pakistan
- Python Development | Government of Pakistan

Projects

AI-Powered Resume Analyzer – Built an AI-driven tool to analyze resumes, giving candidates real-time feedback on structure, strengths, and optimization.

Smart Expense Tracker with Visual Insights – Designed a web-based tool that tracks personal and business expenses, generating visual charts and financial insights.

Real-Time Project Management Board – Developed a Trello-style task management app with real-time collaboration features using MERN stack and WebSockets.

DeFi Real Estate Platform – Built a blockchain-based property management platform with smart contracts to enable transparent and secure real estate transactions.

Skills Summary

ReactJS / React Native	90%	██
Node.js / Express.js	85%	██████████████████████████████████████
MongoDB	80%	██████████████████████████████████████
